PROFILE

I'm a tech student with a strong passion for learning, building, and exploring how technology shapes the world around us. While I'm still early in my journey, I've already gained hands-on experience through projects, coursework, and self-learning — from coding and debugging to collaborating on real-world problems. I'm naturally curious, eager to grow, and excited to contribute to teams where I can learn from others, take on challenges, and use technology to create something meaningful.

INTERNSHIP / EXPERIENCE

SOFTWARE DEVELOPER INTERN

Software Developer Intern

October 2023 – April 2024

- Contributed to the development of a large-scale Social Networking Website project.
- Focused specifically on and managed two essential modules: Profile Management and Friends Organization.
- Gained hands-on experience in collaborating on real-world problems, coding, and debugging within a project context.

SKILLS

- **Languages:** Python, Java, C
- **Emerging Technologies:** Agentic AI / AI Agents
- **Web Technologies:** HTML, CSS, PHP
- **Database:** DBMS
- **Core Concepts:** Data Structures, OOPs

EDUCATION

Parul University
2024 - 2026 (Expected)
Master of Computer Application (MCA)

Parul University
2021 - 2024
Bachelor of Computer Application (BCA)

- CGPA: 8.46/10

PROJECTS

AI Task Assistant (Agentic AI)
Self-Learning Project | 2025

- Built a Python-based AI agent capable of executing multi-step tasks using reasoning-based prompts.
- Implemented agentic workflow where the agent plans, selects tools, and generates final responses.

CONNECTHUB – Social Media Platform
October 2023 – February 2024

- Developed Connecthub, a social media communication platform similar to Instagram.
- Implemented core social networking features, including the ability for users to post pictures and engage via likes & comments.
